TERMS

Seeds and Supplies: Cash with order, otherwise shipment will be made C. O. D. **Plants:** Cash with order, no C. O. D. orders accepted. Remittance can be made by Check, Postal Money Order, Express Money Order or Registered Letter. You are protected by our safe delivery guarantee.

The fact being well known that no reputable seedsman now guarantees seeds in any respect renders it unnecessary for us to say very much on this point, because it must be apparent to every intelligent person that no seedsman can afford to send out poor or worthless seeds. There could be no more certain way of destroying his business.

While we exercise the greatest care to have all seeds, plants,

and bulbs pure and reliable, we give no warranty, express or implied, as to description, purity, productiveness, variety, or any other matter of any seeds, plants, or bulbs that we send out; and we will not in any way be responsible for the crop. Therefore in no case will Orol Ledden & Sons be liable for more than the amount actually paid us for seeds, plants or bulbs. If the pure chaser does not accept the goods on these terms, they are to be returned at once and the money paid will be refunded.

All prices quoted in this Catalogue are subject to change without notice.

OROL LEDDEN & SONS

Safe Delivery Guaranteed

All seeds and plants are guaranteed to arrive in first-class condition, and if they do not, mail carrier or expressman should be notified on delivery. If damaged, request him to make notation of damage, sign, and mail to us at once, and more seeds or plants will be forwarded or money refunded.

To Our Customers:

This year we must grow more vegetables than ever before. It is everyone's duty to grow whatever vegetables he can. Here in the United States, the food up to now has been sufficient, but unless good crops are produced again this year we, too, could have a food shortage that might prove serious.

The United States will be sending larger quantities of food to our armed forces and to our allies. When the war ends, large quantities of food, if available, will be exported to starving Europeans until such time as they are able to produce their own. During the war the United States has been the arsenal supplying war equipment. For at least a year after the war, we will supply the food in whatever quantities we can, to Europe laid waste.

In this the 40th year our firm has been in business, we have on hand a larger supply of high-quality vegetable seeds than ever before. The growers of our seeds in almost all instances had good crops in 1943 and the seeds were harvested under good weather conditions.

We ask our mail-order customers to please order seeds as early as possible. This will be of the greatest help to us and will insure your having your seeds well in advance of planting-time.

We thank you and wish you very good success in your planting.

LEDDEN'S *Highest-Quality*

We prepay transportation charges on all of our seeds except quarter bushels or more of Beans, Corn, Onion Sets, and Peas at bushel rates. For prepayment of these, please add one cent per pound to the price. This enables our many mail-order customers to secure Ledden's Seeds at no extra cost. No charge is made for packing or package.

VEGETABLE SEEDS

40TH YEAR

In this the 40th year that we have been in business, we are better able than ever to supply the highest-quality vegetable seeds. Through the years the name of Ledden has been synonymous for the best seed to be had, and we take pride in maintaining our reputation.

Bush Lima Beans (California-grown)

Sow from May 1 to July 15

Fordhook. We have a reputation for handling an excellent grade of Fordhook Bush Limas. Our Beans are all hand-sorted, extra large, good croppers, and almost free from cracked Beans. We supply a number of the largest growers, some of whom plant as many as 40 acres of Fordhook Bush Limas, and have been buying their seed supplies from us for thirty years. Especially grown by a leading grower who specializes in this variety. Requires 75 days from sowing to date of maturity. \$0 45 5 lbs. \$0 40 10 lbs. \$0 35 15 lbs. \$0 30 60 lbs. \$0 15 00
Improved. A flat-pod Lima, which has steadily advanced in popularity for both home-growing and market use. The compact, bushy plants are very prolific, bearing huge pods in clusters of 5 to 7, averaging 5 inches long or more. Matures in 75 days. 45 40 35 13 80
Henderson's Bush Lima. A fine Baby Lima with productive bushes 20 inches tall. Each pod contains 3 or 4 small white Beans. Matures in 65 days. 45 40 35 13 80

Beets

Sow from March 20 to July 20

Crosby's Egyptian. A standard early variety very popular with market gardeners as the tops bunch well and the dark red, flat-globe or turnip-shaped roots make a good appearance. Small tap-root. Tops large and tall. Flesh purplish red. Matures in 60 days. 25 75 2 40 2 35
Detroit Dark Red. A standard variety for truckers, produce shippers, and canners. Tops medium, dark green tinged with red. Roots globular, smooth, uniform, attractive, with small tap-root. Color deep ox-blood-red. Flesh dark red with indistinct lighter red zones; fine quality, sweet and tender. Matures in 68 days. 25 75 2 40 2 35
Early Wonder. A pedigreed stock, the result of many years of breeding; unsurpassed in earliness, uniformity, and in depth of interior color. Distinctive green tops, erect, uniform in size and color, bunching very attractively for market. Roots round when young, semi-globular later, deep red, smooth, with small neck and tap-root. Flesh deep dark red, tender, and of excellent quality. Matures in 57 days. 25 75 2 40 2 35
Mangel Wurzel, Mammoth Long Red. Roots extremely large, long, slightly tapering, grow half above ground. Color light red; flesh white with rose tinge. Used extensively for cattle feeding. Matures in 110 days. 20 70 2 10 2 00

Broccoli Sow from April to July 1

Green Sprouting Calabrese. The leading variety for shippers, market gardeners, and home-gardens. The tall, branching plants form a compact head of bluish green flower-buds resembling a head of cauliflower. After the main head has been removed, side shoots with small heads continue to develop. A delicious vegetable, steadily gaining in favor. 60 days to maturity. Pkg. \$0 10 Oz. \$0 50 1/4 lb. \$1 50 Lb. \$5 00
Raab or Turnip Broccoli. Grown for tops and tender flower shoots used as greens. Plant 18 to 22 inches tall; strap leaved, medium grown. 10 30 90 3 00

Cosmos, Orange Flare

Annuals have so many uses on the home grounds that it is difficult to imagine a flower garden without them. Started from seed early in the spring, either indoors or out, they bloom and die within one growing season. They are indispensable for quick effects, for filling in bare spots, for following early spring bulbs, and for providing midsummer bloom. By using annuals, the gardener can change the looks of his plantings from year to year.

There is a wide variety in the height, growing habit, and color range of annuals. This makes them suitable for combining with many other plants such as perennials and shrubs. They give the garden a light, colorful look, and for a small outlay of time and expense furnish flowers for weeks.

Some of the most popular annuals are pictured here. Orange Flare Cosmos is a new member of an old family. Its brilliant orange flowers combine well with blue and white. Bachelor's Buttons make a fine cut-flower, and Dahlia-flowered Zinnias as well. Zinnias can be depended upon for a steady succession of bloom all summer.

GYPSOPHILA, Covent Garden (Baby's Breath). Annual. Large-flowered white variety. Useful cut-flower.	Pkg. 1/4oz.	Oz.

Chieftain Savoy. The crumpled-leaf variety, producing large heads. Should be planted in June, July, or August.

Copenhagen Market. An extra-early, good, round-heading, hard Cabbage, about one week later than Golden Acre.

Danish Ballhead. A very hardy, sure-heading, heavy variety which has proved to be one of the best keepers. A desirable Cabbage for kraut.

Early Jersey Wakefield. A very early, pointed-head Cabbage, compact and erect, with few outer leaves. Stem short; heads medium-sized.

Glory of Enkhuizen. Hard-heading, second-early, fine-grained. One of the best for kraut.

Golden Acre. This is the most popular early variety. Heads are of good size, perfectly round, solid, and very uniform and compact, having few outer leaves, which permits close planting. We have a very good strain from a reliable grower.

Late Flat Dutch. Enormous, flat head. Should be planted early in July as it requires a full season to head hard. Best late variety and also best winter keeper.

Marion Market. The heads are almost round and very solid. Early variety.

Round Red Dutch. Hard-heading red variety.

Celery Plants *Plants ready July 1 to August 15*

Emperor or Fordhook. Plants stocky and compact; stems thick, round and of fine quality. Fine for late fall use and winter storage.

Giant Pascal. Grows large and is the leading late variety. Stalks are broad, thick, and solid. Extra good eating Celery; very brittle.

Golden Plume. A self-blanching Celery developed from Golden Self-blanching. Has been pronounced by authorities to be the best early variety. Blanches quickly and is very healthy.

Ledden Golden Self-blanching. Tall. The most popular and one of the best of all early varieties. For the past few years our stock has produced Celery of unexcelled quality and perfect growth. Everyone should raise this excellent variety. Stalks 26 to 28 inches tall, which blanch readily.

Sanford Easy-blanching. This good variety comes a little later than Golden Self-blanching and requires longer banking to blanch. Vigorous in growth and a splendid keeper.

White Plume. An early Celery with beautiful white leaves in center. Blanches pure white. Liked by some better than Golden Self-blanching.

Winter King. A strong grower and one of the best keepers. Blanches white when banked.

Pepper Plants *Plants ready June 1 to July 10*

California Wonder. A well-liked variety. Meat very thick and dark green, turning crimson. The heaviest and thickest Pepper on the market today. Sweet variety.

Calwonder, Early. An early variety, maturing in 63 days.

Long Red Cayenne. A red-hot variety used for pickling, drying, etc.

New Jersey World Beater No. 13. The new strain of this popular variety. Shows considerable resistance to mosaic. Thicker walled than regular World Beater.

Red Cherry. Round red-hot variety.

Red Chili or Short Cayenne. Extremely hot variety.

Ruby King. An extra-good variety, earlier than World Beater. Heavy cropper. Sweet variety.

Tomato or Squash Pepper. A round, sweet variety.

Tomato Plants *Field-Grown plants ready June 1 to July 10*

Certified Marglobe. A second-early, solid, very meaty, thick red Tomato, that ripens well up to the stem, making it very desirable for canning or table use. All of our Marglobe plants are grown from New Jersey State Certified Seed.

Large Red Plum. Plum type. Larger and more blocky in shape.

Rutgers. This introduction by Lyman G. Schermerhorn, of the New Jersey Agricultural Experiment Station, is a leading development in Tomatoes. It compares in shape and size with the Marglobe but is slightly larger and a heavier yielder. The fruit ripens a deep red up to the stem, and runs very uniform in size. An excellent variety for home use, marketing, or canning. Canners who put up Tomato juice speak very highly of the variety, as it produces a juice which is deep red in color. All Rutgers grown from New Jersey State Certified Seed. Highly recommended.

Stokesdale. A good second-early variety. Fruits are globe-shaped, of good size. One week earlier than Marglobe. Plants grown from New Jersey State Certified Seed.

Yellow Plum. Small yellow plum-shaped. Used for preserving.

FIELD-GROWN TOMATO PLANTS. Parcel Post or Express prepaid: \$1.00 per 100; \$1.75 for 200; \$2.75 for 500; \$4.00 per 1,000. Express or Parcel Post, f.o.b. Sewell: \$3.00 per 1,000. At store, 65 cts. per 100; \$2.00 for 500; \$3.00 per 1,000.
